DEC 22 2008

MEMORANDUM FOR: David R. Hill, General Counsel, GC-1, HQ

FROM: 
Karen L. Boardman, Director

SUBJECT: Annual National Environmental Policy Act Planning Summary
for FY 2009

In response to your memorandum of December 10, 2008, the following information is provided for the National Nuclear Security Administration, Service Center (NNSA/SC) in Albuquerque, New Mexico.

Status of Ongoing NEPA Documents:

No ongoing documents.

Expected Environmental Impact Statements Within Next 24 Months:

None are planned in the next 24 months.

Expected Environmental Assessments Within Next 12 Months:

If Congress passes the legislation, NNSA would prepare an EA for the conveyance of federal properties to a private institute.

Evaluation of Whether A Site-wide Environmental Impact Statement (SWEIS) Would Facilitate Future NEPA Compliance Efforts:

The mission for this site was changed under the NNSA re-organization, December 20, 2002, but the operations of the site remain bounded as analyzed in the Sandia National Laboratories, New Mexico, Final Environmental Impact Statement (October 1999). A five year review of the (FEIS) [§1021.330] was performed in 2006. The Supplement Analysis [DOE/EIS-0281-SA-04] concluded that the current and projected SNL/NM operations incorporating the SC are within the envelope of consequences established in the 1999 SNL/NM SWEIS.

Please direct any questions regarding this summary to Jeff Robbins, NEPA Compliance Officer, at (505) 845-4426.
